

GO AHEAD, GET AHEAD

## 5<sup>th</sup> IEC Young Professionals workshop

10 – 12 November 2014 Tokyo, Japan

### Why attend?

- ▶ Only annual workshop dedicated to the next generation of experts providing a holistic understanding of the standardization and conformity assessment work of the IEC
- ▶ Benefit from exceptional networking opportunities with >1000 international key players
- ▶ Experience an IEC General Meeting: a key annual event that brings together the IEC technical and the management community; build knowledge and expand professional contacts
- ▶ See how International Standards are managed and developed through the opportunity to attend management and technical meetings
- ▶ Participate in interactive sessions and events where you can exchange with peers and have your voice heard – the outcomes are reported to IEC management

### Benefits for your company

- ▶ Be ahead of the technology curve in your field
- ▶ Help to ensure technology transfer
- ▶ Foster a culture of innovation
- ▶ Cultivate long-term involvement in the international arena

### Are you...

- ▶ A young and dynamic manager, engineer or technician aged from early 20s to mid-30s?
- ▶ Experienced in working with or developing standards or involved in conformity assessment?
- ▶ Working for a company, business or industry that uses or benefits from standards?
- ▶ Wanting to become more involved in IEC related activities?

### How to register

Contact your National Committee for details of the selection process in your country. ([www.iec.ch/members](http://www.iec.ch/members))

[www.iec.ch/youngprofessionals](http://www.iec.ch/youngprofessionals)

### What to expect?

***“ I truly had a wonderful experience and was able to meet and network with many individuals that can expand my contacts, both professionally and personally. Through talking with other YPs I was able to see the "big picture" scope of the IEC.”***

CHELSEY SCHWEIKERT,  
USA

***“ I received a lot of information about International Standards. I appreciate how we can communicate and discuss with senior engineers, standards experts, and how we can use standards to achieve the company's strategy.”***

ZHAN WEI,  
China
